# INTRODUCTION

THE COMPOSITION OF THE HUMAN BODY IS FROM THE FIVE ELEMENTS

The human body is made of five elements: air, water, sky, fire, and earth. To stay healthy, it's important to have a good balance between your mind and body. But if any of these elements gets imbalance, it can make you feel your body and mind unhealthy.

# **THE EARTH ELEMENT IS VERY IMPORTANT FOR OUR BODY...WHY???:**

Because, the important thing for our body is the balance of forces that Earth creates. They are,

1. **Gravity:** This force pulls everything towards the Earth's center, including our blood.
2. **Magnetic Field:** the Earth has a magnetic field which indirectly influence biological processes.

These forces work together to keep our **blood circulation properly throughout our body**. This circulation is essential for delivering oxygen and nutrients to our cells and removing toxins from the body.

To get **blood circulation properly throughout our body, the best solution is Bio-Magnetic Therapy.**

## **WHAT IS BIO-MAGNETIC THERAPY**

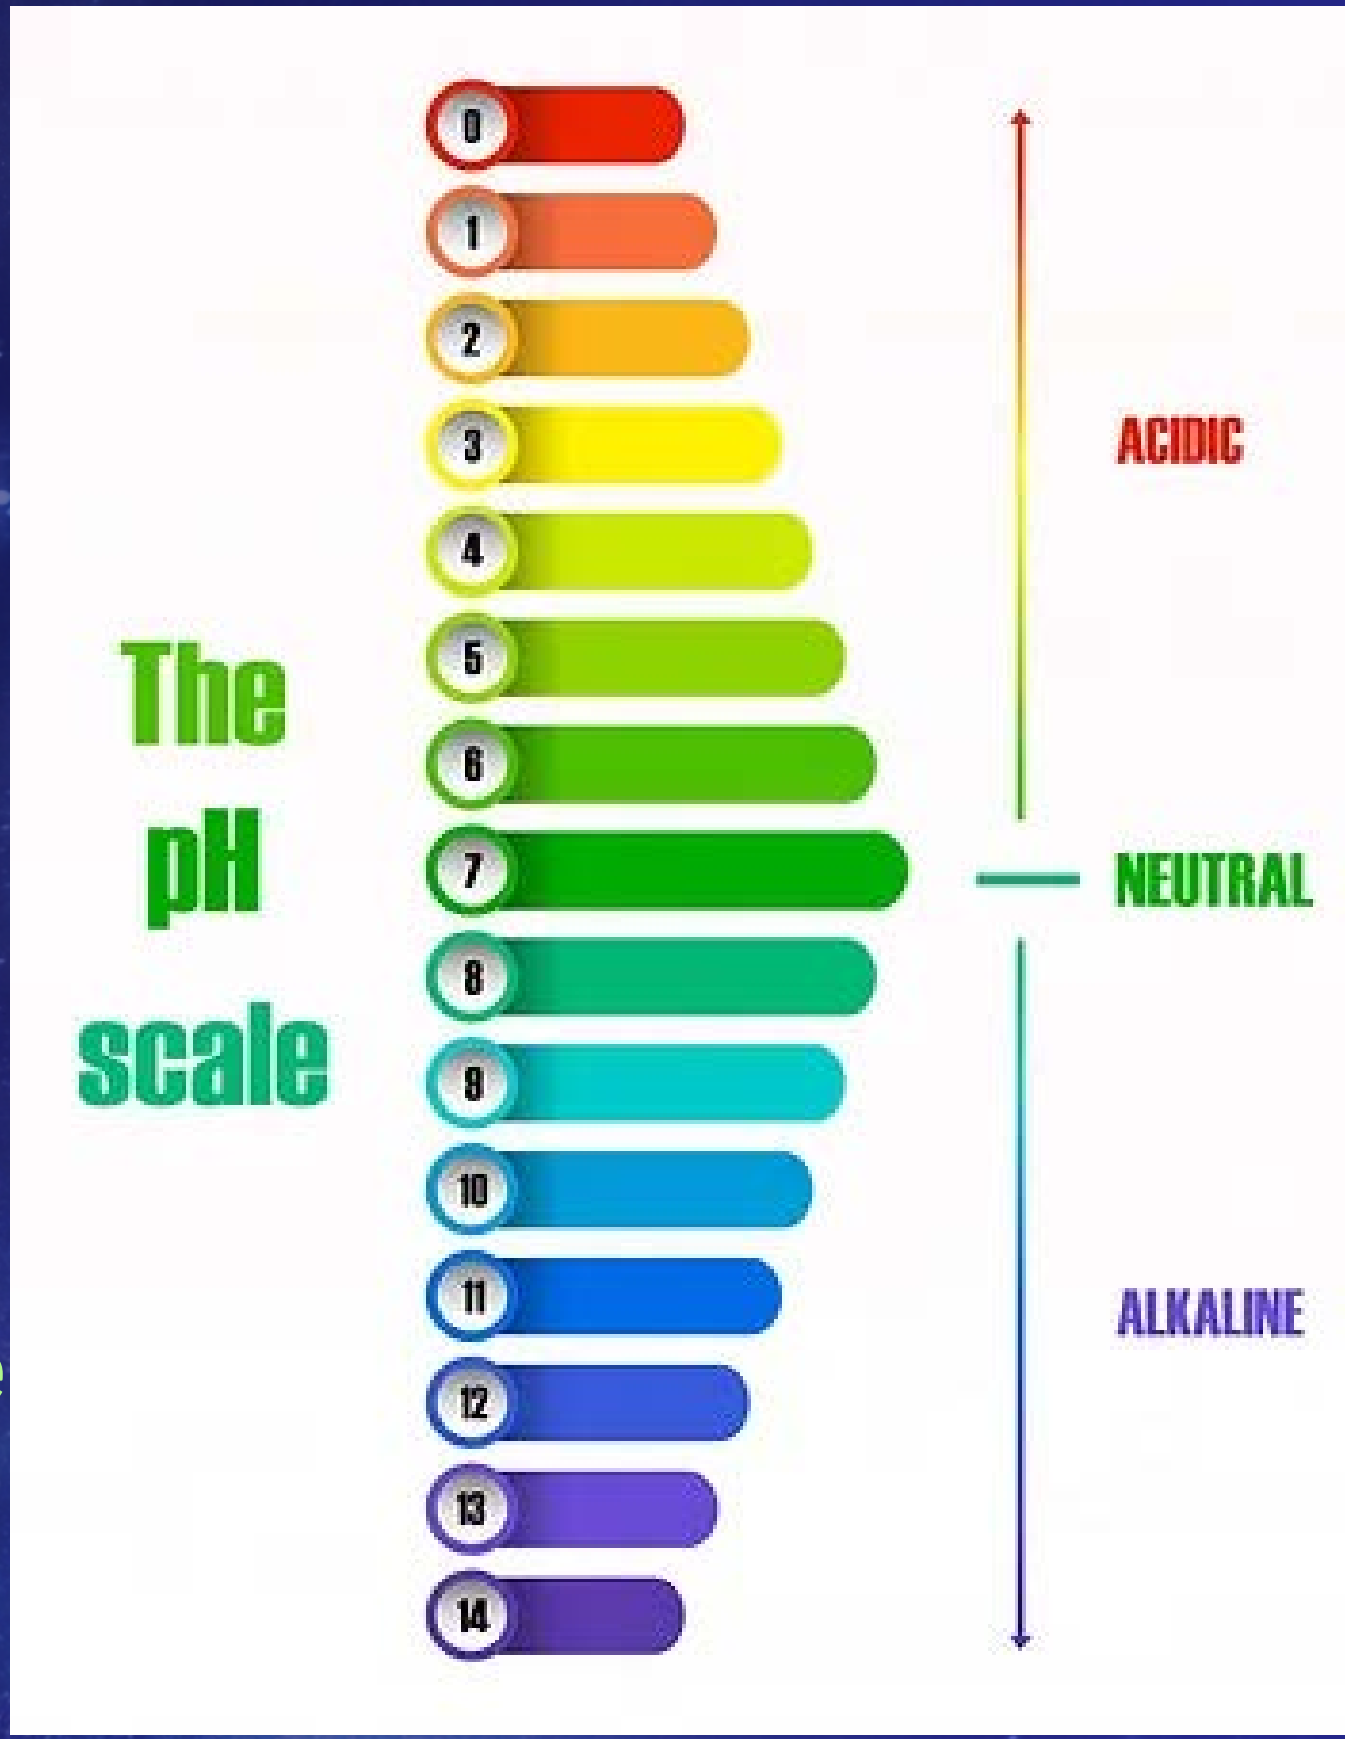

Biomagnetic therapy, is a natural and safe way to help cells in our body to get back, to their normal state. It uses pairs of magnets with medium strength to do this. The aim is to balance the pH level in your body, which is really important for staying healthy.

In order for us to survive, we require two critical things to happen:

- Our bodies need to stay at around 98.6 degrees Fahrenheit, which is like our normal temperature.
- Our bodies need to keep a pH level close to 7.4, which is slightly more on the alkaline side than neutral.

- Just like a swimming pool needs the right pH balance to keep algae away (too much alkaline) while not irritating skin and eyes, our body also needs a balanced pH to stay healthy.
- Medical biomagnetism, discovered by Mexican doctor Isaac Goiz in 1988, suggests that many diseases, including cancer, are linked to changes in the pH levels inside our body and the presence of harmful things like viruses, bacteria, and toxins. When our pH levels are balanced, it's harder for illnesses to develop. Biomagnetic therapy aims to restore this balance to help prevent and treat diseases.
- Biomagnetic therapy is different from magnetic therapy and magnetic acupuncture. Unlike these two, the biomagnetic pair uses pairs of magnets of opposite charges to depolarize areas in the body that are unbalanced due to pathogens or other factors that resonate energetically and vibrationally.

# **BENEFITS OF BIOMAGNETIC THERAPY**

- Bio magnetic therapy helps balance pH levels and creates an environment that's not friendly to germs
- It fixes the energy and ions inside our cells.
- It's natural, painless, and doesn't need surgery.
- It tackles the main problem causing pain or sickness, not just the symptoms.
- You might notice results quickly, sometimes in a few minutes, days, or weeks.
- It doesn't have any bad effects and can be used with other treatments too, both regular and alternative ones.
- It improves blood circulation in the body & balances oxygen level in the body

## Improved Blood Circulation

The magnets in the mattress can help enhance blood flow, which may alleviate muscle tension and promote relaxation.

## Pain Relief

Some users report experiencing relief from chronic pain conditions such as back pain, arthritis, and joint discomfort due to the magnetic therapy's ability to reduce inflammation and enhance healing.

## Better Sleep Quality

The relaxation induced by improved blood circulation and pain relief can contribute to better sleep quality and may help alleviate insomnia or sleep disturbances.

## Stress Reduction

The calming effects of the magnetic therapy may help reduce stress and anxiety, promoting a sense of well-being and relaxation.

## Enhanced Healing

Magnetic therapy is believed to accelerate the body's natural healing processes, which can be beneficial for recovery from injuries or surgeries.

## Support for Overall Health

By promoting better circulation, reducing inflammation, and supporting relaxation, using a biomagnetic mattress may contribute to overall health and wellness.

**More Than 90% of bodily disorders & Diseases are attributable to Low oxygen level in blood & poor blood circulation. Use of Bio magnetic mattress & pillow pads enhances oxygen level & improves the blood circulation**

### **Micro-Cluster Technology**

#### **Functions of Water in the Human Body**

The quality and structure of the water you drink is critical for the correct operation of these functions

**With the right water correct pH of the blood is maintained without "stealing" minerals from other organs.**

BIO-MAGNETIC WATER ENERGY PAD helps to break, split, reduce & convert in to Small water molecules structures for increase oxygen in direct blood cells & Improve up to 2 to 4 times more oxygen than your normal water.

Normal tap water has a pH (Potential of Hydrogen) of less than 7 (around 5 to 6) which means tap water is acidic. Magnetized water is more alkaline and can have a pH as high as 9.2.

## How Does Magnetic Therapy Work?

Separation of blood cells increases the available surface area, which allows cells to pick up more oxygen and release more energy.

### BLOOD FLOW DIAGRAM

#### Blood Flow Through Capillary

### Improved Blood Circulation

The magnets can enhance blood flow, which may help with overall health and healing.

### Stress Reduction

It can promote relaxation and reduce stress levels.

### Enhanced Healing

It may speed up the healing process for injuries by promoting better blood flow and reducing inflammation.

### Pain Relief

It may help reduce pain in areas like the wrist, arm, and hand by improving blood circulation and reducing inflammation.
